

# AL/Arch

AL/Arch was founded in Tel-Aviv in 2004 by Avi Laiser after practicing architecture in Los-Angeles for 6 years. Avi Laiser specializes in combining the fields of architectural and landscape urbanism with development of interactive systems for urban planning and city regeneration.

At the office we are committed to implementing a multi-disciplinary approach to architecture and urban design. Our design process is to integrate innovative design with special attention and consideration for the publics' everyday activities.
